

KETTLEBALM

Hand Care for the Serious Athlete

Medicated **Kettlebalm** was originally developed for kettlebell trainees (Griveks) to treat tears and blisters from their intense training programs. **Kettlebalm**'s unique combination of ingredients provides first aide, pain relief and skin toughening which enables the trainee to achieve longer and more intense training sessions.

Kettlebalm has a lanolin base and pain medications as well as an antiseptic and is safe for human use. It speeds healing and acts as a skin protector. Because of it's pain relieving abilities, **Kettlebalm** can be applied directly to a wound or torn callouses.....***advanced hand care for the serious trainee!***

Kettlebalm is available online
